Data for Policy 2025 (DfP'25) Asia-Pacific

Guidelines for Presenters at Sessions

1. Sessions last one hour. In general, all presenters will give a summary presentation of 5 - 7 minutes, according to the number of speakers in the session, aiming to use approximately half the session in this way. The presentation videos for full papers will **not** be played at the meeting. The remainder of the session will be for discussion and Q&A.
2. Presenters may submit summary slides in PowerPoint format. These can be uploaded to Data for Policy OneDrive via email invitation. Those giving virtual presentations can share their screen.
3. Kindly organize the contents of the slides very selectively, appropriate to a summary presentation.
4. It is recommended that questions are taken after all presentations have completed.
5. Full-length presentation videos, book of abstracts and Zenodo materials are available to all conference attendees.
6. Photography and video-recording by the Conference Team will also take place for use in post-conference publications and other related online/printed material. Please inform session chairs and conference volunteers in the room if you have any reservations about this.
